

ENVIRONMENTAL POLICY

Integra Cleaning Group Ltd understands the importance of accountability and responsibility in the interest of protecting our environment. The object of this policy is to establish the framework around which we can demonstrate conduct, guidance and awareness in relation to environmentally friendly practices in the cleaning sector.

By being sensitive to our environmental responsibilities, the Company recognises that this is a major task, both now and in the future. Due to the nature of our business, some of the cleaning materials we use can have the potential to negatively impact the environment. When the use of such material is unavoidable it is only used under strict control.

To maintain a proactive role in the care and protection of our environment, Integra Cleaning Group Limited is committed to the following:

- The Company endeavours to adhere to and, where possible, exceed current environmental legislation in line with our ISO14001 accreditation.
- Wherever practicable we use environmentally friendly products and materials that come from sustainable resources.
- We are committed to minimizing the negative effects on the environment, as result of our activities, by continually improving procedures and performance. Such activities include reducing waste from our operations and, where possible, we re-use or re-cycle.
- We promote the use and improvement of energy efficiency or substitution with renewable energy sources across the company. This is reflected in our management decisions.
- The Company monitors its carbon footprint to ensure carbon levels are kept to a minimum, ensuring efficiency and minimizing damage to the environment.

This commitment is communicated with the full support of the Directors of the company and its employees. We continue to work towards significantly reducing our environmental impact through promoting awareness and adopting sustainable business practices where possible.

We will continue to monitor, evaluate and improve our own performance in line with our objectives whilst promoting environmental awareness to all our employees.

Clive Ravenscroft

Managing Director

Integra Cleaning Group Ltd.
